10.075.-52 Adjustment of Fees and Charges

The Park and Facilities Manager, with the approval of the General Manager, has the authority to create special rates when such would be in the best interests of the District, after taking into consideration the time of the year, nature of the client, the reservation status of the facilities, capacity and utilization of the field and other related factors.

Such special pricing shall be on a one-time basis and not create a precedent for other users of the facility or future rates. Any special pricing must cover all incurred operating costs associated with use of the facility.
